TECH SKILLS

Languages: TypeScript, JavaScript, SQL

Frameworks: React, Angular, Node.js, Express, Prisma

Cloud: AWS, Azure, Docker, CI/CD, Vercel

Database: PostgreSQL

Testing: Postman, Jest

Version Control: Git

STRENGTHS

- Deep Work & Focus
- Problem Solving
- Code Integrity
- Transparency
- Team Collaboration
- Resilience

LANGUAGES

- English — Fluent
- French — B1

CERTIFICATIONS

- Microsoft Azure AI Fundamentals
- Google Agile Project Management
- Career Essentials in Software Dev (Microsoft/LinkedIn)
- Software development(Teach2give)

EDUCATION

BSc Computer Science

Dedan Kimathi University of Technology

September 2022— June 2026

Second class upper division

KCSE

Pangani Girls High School

2018-2021

GRADE: A-

Paulina Wambua

Software Engineer · Full-Stack · AI Integration

PROFESSIONAL SUMMARY

High-performance Software Engineer specializing in scalable Full-Stack architectures and AI integration. Known for Deep Work cycles that produce high-integrity, production ready code with a focus on automated financial systems and API optimization. Track record of increasing test coverage by 30% and optimizing system performance by 40% in enterprise environments.

EXPERIENCE

Python Developer Intern | Codveda Technologies

March 2026 – Apr 2026

- Learnt basic python implementation and web scraping.
- Used python to integrate APIs and encrypt/decrypt data.
- Backend development using Django framework.

Software Engineer & QA Attachee | Teach2Give

Feb 2025 – Apr 2025

- Drove a 30% increase in test coverage through rigorous refactoring and Jest implementation.
- Led technical collaborations during sprints to ensure high-standard deliverables.

Computer Science internal Attachee | Dedan Kimathi University of

Technology Jan 2024 – Mar 2024

- Optimized institutional databases and supported large-scale network troubleshooting.
- Developed internal tools to streamline administrative workflows.

HIGH-IMPACT PROJECTS

Ming'aro Africa Limited – ongoing

[Javascript](#) | [express.ts](#) | [postgres](#) | [railway](#) | [vercel](#) | [git](#)

- Building a full-stack e-commerce website for selling fashion clothes and accessories.
- Integrating a secure M-Pesa, paypal and card(paystack) payment gateways.
- Implementing authentication, order tracking, wishlists, carts and checkout.

Fahari Beauty System - Automated Service Management & Fintech

(February 2026)

[React](#) | [PostgreSQL](#) | [Express](#) | [Prisma](#) | [Grok API](#)

- Engineered a full-stack salon management ecosystem with real-time slot management.
- Architected a secure M-Pesa payment gateway and an AI-driven scheduling assistant.
- Implemented role-based authentication and secure client interaction automation.

Skillmatch Platform (April 2025)

[Angular](#) | [Express](#) | [AWS](#) | [Gemini API](#)

- Built a talent-matching engine for 500+ active users.
- Optimized RESTful APIs, achieving a 40% increase in data retrieval speed.
- Automated deployment workflows via CI/CD pipelines on AWS.

Digital Library & Governance System (March 2025)

[TypeScript](#) | [PostgreSQL](#) | [Jest](#)

- Built robust library management with automated testing and responsive UI.
- Designed complex role-based access control (RBAC) architecture.
