ABOUT ME

Computer Science graduate with practical experience in software engineering, quality assurance, database management, cloud technologies, AI integration, and network support. Skilled in building full-stack applications, developing APIs, implementing automated testing, and collaborating in Agile teams. Seeking opportunities in software development, cloud engineering, networking, systems administration, QA, technical support, and graduate trainee programs.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, SQL
- **Frameworks:** React, Angular, Node.js, Express, Prisma, Django
- **Cloud & DevOps:** AWS, Azure, Docker, CI/CD, Vercel
- **Databases:** PostgreSQL
- **Testing & QA:** Jest, Postman
- **Systems & Networking:** Network troubleshooting, Linux fundamentals
- **Tools:** Git, GitHub

PROJECT & PRACTICAL EXPERIENCE

Ming'aro Africa Limited | Full-Stack E-commerce Platform (Ongoing)

- Building a scalable e-commerce platform for fashion products.
- Integrating M-Pesa, PayPal, and card payment gateways.
- Implementing authentication, carts, wishlists, order tracking, and checkout.

Fahari Beauty System (2026)

- Developed a salon management platform with AI-assisted scheduling.
- Implemented secure payments, RBAC, and client management features.

SkillMatch Platform (2025)

- Built a talent-matching platform serving 500+ users.
- Improved API performance by 40%.
- Automated deployment workflows using AWS and CI/CD.

Digital Library & Governance System (2025)

- Developed library management functionality with automated testing.
- Designed role-based access control architecture.

EXPERIENCE

Python Developer Intern | Codveda Technologies | Mar 2026 – Apr 2026

- Developed Python applications and web scraping solutions.

- Integrated APIs and implemented encryption/decryption workflows.
- Supported backend development using Django.

Software Engineer & QA Attachee | Teach2Give | Feb 2025 – Apr 2025

- Increased test coverage by 30% through refactoring and Jest implementation.
- Collaborated in Agile sprints to deliver high-quality software.
- Participated in software testing, debugging, and quality assurance activities.

Computer Science Internal Attachee | Dedan Kimathi University of Technology | Jan 2024 – Mar 2024

- Supported database optimization and maintenance activities.
- Assisted with large-scale network troubleshooting and systems support.
- Developed internal tools that improved administrative workflows.

EDUCATION

Dedan Kimathi University of Technology | Bachelor of Science in Computer Science | 2022–2026

Second Class Upper Division

Pangani Girls High School | KCSE | 2018–2021

Grade A-

CERTIFICATIONS

-
- **Microsoft Certified:** Azure AI Fundamentals (2025)
 - **Google** Agile Project Management Professional (2025)
 - Career Essentials in Software Development – **Microsoft & LinkedIn** (2025)
 - Advanced Software Engineering and QA – **Teach2Give** (2025)
 - JS AI Build-a-thon Badge – **Microsoft Americas Azure Team** (2025)
 - French DELF/DALF B1 – **Alliance Française** (2025)
 - English Professional Proficiency – **EF SET** (2025)
 - Frontend Web Development – **Alison** (2023)
